

Electronic Device Radiation Shield and Heat Reducer

PROTECT

Yourself Against The Harmful Effects Of Mobile Phone Heat & Radiation

SHEILDS OVER
99.95%
of radiation emitted
from your mobile
device

Proven to reduce your
mobile's heat radiation
by over
80%

Now enjoy long hours of working
on a laptop and talking on a
mobile phone with the heat
emission and electromagnetic
radiation becoming insignificant
and harmless.

It is a proven fact that wireless technology, a
necessity in today's advancing world, exposes us
to potential health hazards. Mobile phones (and
other wireless and electronic devices) emit
electromagnetic radiation (EMR). Evidence shows
that just a few minutes of mobile phone use
begins to heat the brain tissues and can cause
changes to cells, a proven precursor to cancer
and other diseases.

Dr. David Carpenter, Dean at the School of Public Health, State University
of New York states that "30% of all childhood cancers are associated
with EMF (electromagnetic frequency) exposure".

How cell phone radiation penetrates the brain by age

5 Year Old

10 Year Old

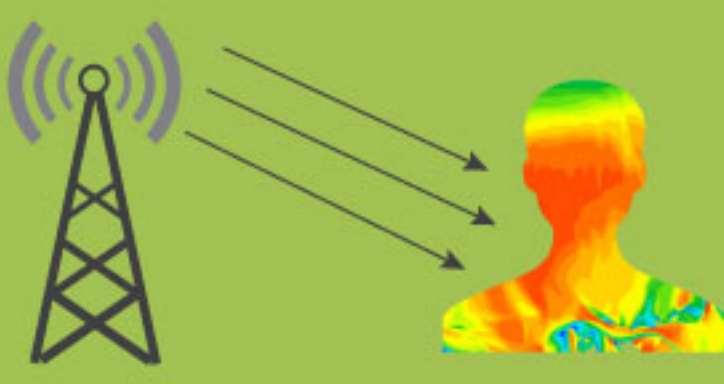

Adult

Doctors from the UK have issued warnings urging children under **16** not
to use mobile phones. The problem is real and the research continues to
expand, but there is a solution.

SOLUTION

WITH Hedron EMF Protective Device

WITHOUT Protection

The Hedron EMF Protective Device's unique and Patented (Patent No: 6722/RQ/CHE/2012)
frequency embedding Scalar Technology can also be used to shield users from EMF/EMR
emitted from other electronic devices such as:

Cordless
Phones

Laptops

PC's

Microwaves

Refrigerators

Televisions

Gaming
devices

iPads

It is recommended that 2 or more Hedron Protective devices be
used on anything larger than a smart phone.

Hedron EMF Protective Device is a frequency
harmonizing chip that has been developed using a
unique combination of minerals plus Scalar Energy
Embedding. When adhered to your electronic device,
Hedron EMF Protection shields the harmful radiation
and heat emissions without any negative impacts to
the function of your phone or other device.

CALIFORNIA INSTITUTE OF ELECTRONICS AND MATERIALS SCIENCE (CIEMS)

CIEMS certified that Hedron shields over **99.95%** of all
radiation emitted. Bureau Veritas has also certified the SAR
compliance for Hedron.

User Instructions

Peel Hedron off of
package and stick
on the backside of
the Laptop at 3-5
places where heat
emission is higher.

Do not close heat
vents of the Laptop.

Stick 1 piece at
the back of the
Mobile Phone.
